

 **IN PLACE**

Innovative Video Presentations for Learning Creative Entrepreneurship

Newsletter January 2019

Last Monday, January 21, the 4th TPM of the IN PLACE project took place in Milan, Italy. The host organization was DLEARN and received the partners that participate in this project to know the progress of it.

During the meeting we were able to discuss the quality of the project, the dissemination of the activities, the conclusions of the training course that PROWORK delivered last year to a teacher of each organization and the case studies.

In addition, all the partners showed the new videos which the students are doing.

Finally, we established a work plan to finish the project and we were organizing the final international conference, which will take place in Granada next June, where we will present the final result of the project to the students and teachers of the Ave María Casa Madre School.

You can see the videos finished and find more information about the project on our website:
