

 **IN PLACE**

Innovative Video Presentations for Learning Creative Entrepreneurship

Newsletter november/december 2018

From 29th October to 2nd November 2018, a training course for teachers took place at the beautiful office of Foundation Knowledge centre PRO WORK next to Grand hotel ter Duin in Burgh-Haamstede (The Netherlands), within the European project IN PLACE. The event was organized by PRO WORK, as host organization.

The objective of the project is to share good practice among partners in establishment of sustainable and mutually beneficial relations between vocational schools and small and medium enterprises, in the participating countries and transnationally, focused on Work-Based learning opportunities for students.

On this occasion, the reason for the meeting was a course to train teachers to use the Markbook online platform, created by the British organization TLM. This training was attended by professors from each partner organization of the project, which brought together professors from Bulgaria, the Czech Republic, Spain, Italy, Portugal and the Netherlands.

From now until the end of the project, all partners will use this platform as a tool to assess the knowledge acquired from students who participate by recording and editing videos about local businesses from all participating countries.

The next meeting of partners will be in January 2019 in Milano. In that meeting we will check the progress of the project, present the new videos and share experiences.

You can see the first videos finished and find more information about the project on our website: <http://inplace.cz/>
