

 **IN PLACE**

Innovative Video Presentations for Learning Creative Entrepreneurship

Newsletter June 2019

The INPLACE project is ending after two years of teamwork. The fifth and last meeting between partners took place recently in Granada (Spain), with the association AGIFODENT as host. On June 6 we met all the partner organizations (Euroface Consulting, PrimMat, Pro Work, DLEARN, SPI, NTC and AGIFODENT) to share the work done since the last meeting in Milan last January and make sure we achieve the project's objectives.

During the meeting we talked about the quality and dissemination of the project, the compendium of case studies and we taught our partners the latest videos made by the participating students. Finally, we have the 60 videos made ready to watch on our website.

On Friday, June 7, the International Conference of the project took place at the San Isidoro School, in the centre of Granada. During the event we presented our project to about 40 students. Then we showed them two videos per country and they gave us their assessment of each video (professionalism, duration, quality of audio and sound ...).

The average rating of the students was quite good. After the International Conference, the project partners said goodbye very grateful, hoping to return to work together very soon.

Remember that you can see all the videos and find more information about the project on our website: <http://inplace.cz/>
